

Denmark May 11. 1832

Dear Daughter

Do you know when it rained? Do you feel any pain enough so that you have not forgotten what it is & how it looks? If so then come home I need you you the Jews. The mechanics began to raise the staple. I've had 4 showers that day & night. It rained again yesterday & last night. Largely what was has been planted has rotted. Though my garden seeds have come up pretty well. My grape vines did badly last winter. I grapes will not be a drag in my garden this year.

We got a letter from W. last eve. He is in fine spirits. They learned Thurs. eve. of the change in the P. O. (Frid & Sat. They circulated a Remonstrance. I got 300 names, only about a doz. refused to sign. The lawyers have all signed a letter to their representatives that if he does not get Young restored. They will oppose his re-nomination for Congress next Fall. & nearly all the business men in the place have sent a similar one. The Clergy are uniting in another. W. says it is pretty hot for the Methodist minister who got the change. It made him much frightened. They sent on the first lot of Remonstrances & letters with the Bonds for the new P. O.

It does not much effect it will reverse the action
of the Department but says it has developed an
amount of sympathy & friendship that they did
not dream of. Says they will have no fears now
getting a good trade & doing a good living business
without the P.C. Still they would like the Office
I do not think of any news to write. Mr. Swift
I did not go to Mt Pleasant & we were glad of it. As it
was, it would have been pain going & coming.
Mat. came up yesterday took tea & was caught in
a shower. I do not think of any thing more
Good bye. All send love as ever
Father
